Kamifukuoka Station West

-Fujimino, Saitama

Urban redevelopment for regional community hub
with reconstruction of aged housing complex
(1992~)

Key Issue

- Vulnerable for natural disasters, traffic congestion and pedestrian safety by small station square and narrow roads (difficulty on local bus services)
- Effective use of the land (formerly occupied by aged housing complex constructed in 1950s and low and middle rise housings)

Source: Geospatial Information Authority of Japan

Source: amanaimages

Project Approach

- Integrated urban redevelopment for infrastructure upgrade (roads and station square) with housing complex reconstruction
- Introduce integrated public facilities (childcare facility, multi-functional hall) and commercial facilities to enhance community hub function of the station surroundings
